Download & Install Fonts

Download Fonts

1. Go to https://fonts.google.com/
2. Search ‘Caveat’ and ‘DM Sans’
3. Download fonts

Install Fonts

1. After download fonts, extract file
2. Double click the .otf/ttf files
3. Click install

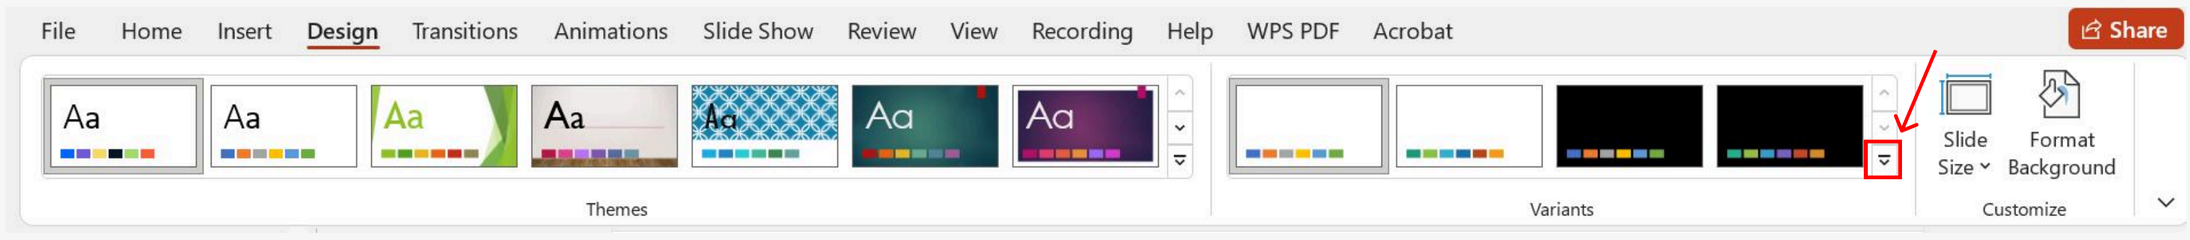

Changed Image

1. Drag & drop your picture into placeholder **or**
2. double click image placeholder and choose file from your library

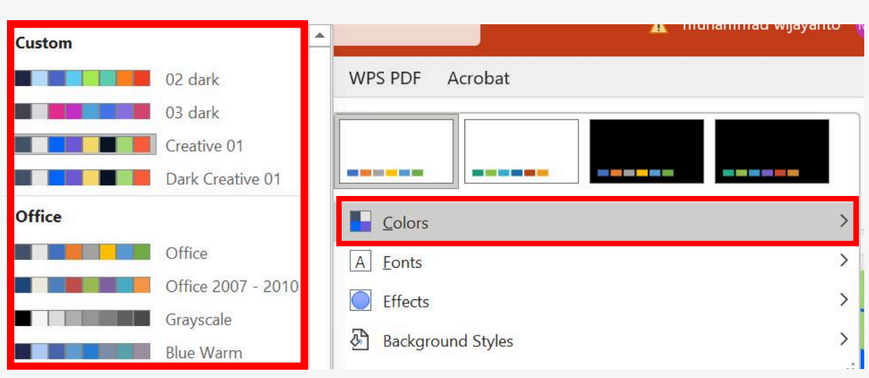

**sometimes after dragging your picture into placeholder, you must right click and select ‘send to back’ because some of the slides contain transparent rectangle*

Changed Color

1. Click design tab
2. Select color on dropdown

3. Choose colors and select the color schemes you want
